

Dodot Light

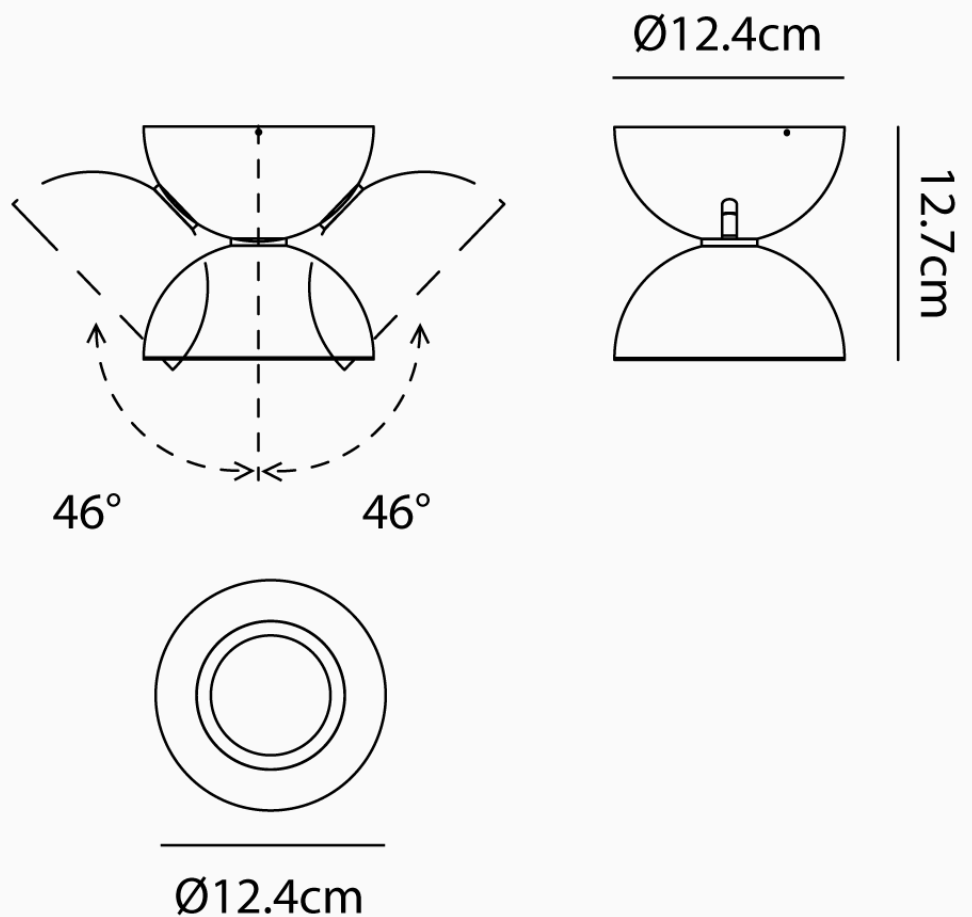

Description

A perfect harmony of form and function, DoDot is a highly versatile surface mounted light. It is characterised by its minimalist geometric form and is available in a selection of neutral colours to suit a wide range of architectural lighting applications. The fitting is made up of two small hemispheres that can be adjusted up to 90° with an in-built 17.5W LED providing a high output illumination. Suitable for installation on ceiling and wall surfaces, DoDot is the latest creation of architect and designer Simone Micheli for Axolight. Made in Italy.
