

On Lines Table Lamp

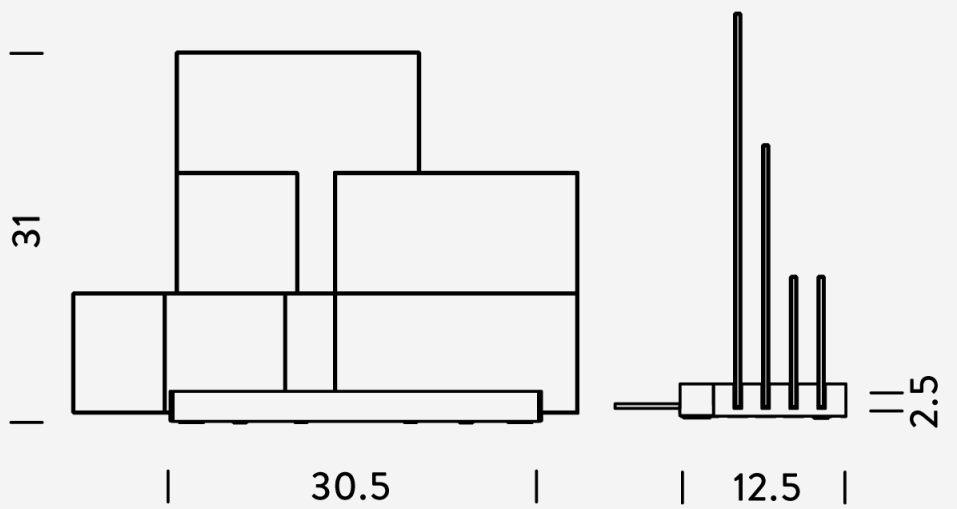

Description

"Blurry, contrasting, pure, rhythmic, cold, warm...Everyone gets lost depending on situations and desires," says designer Jean Nouvel of the immersive abstraction of his interactive On Lines Table Lamp. A series of colored methacrylate diffusers slot into an LED-illuminated aluminum base where tracks allow the user to freely position the diffusers to create their own configurations of light and transparency. Evoke an abstract painting, a city's luminous skyline, or any mood that pure light and form can reflect. The lamp has a touch dimmer switch keeping inline with its elegantly minimal design. Available in two versions, white painted base and colored diffusers or black painted base with neutral and one red diffusers.
