

String T2 Table Lamp

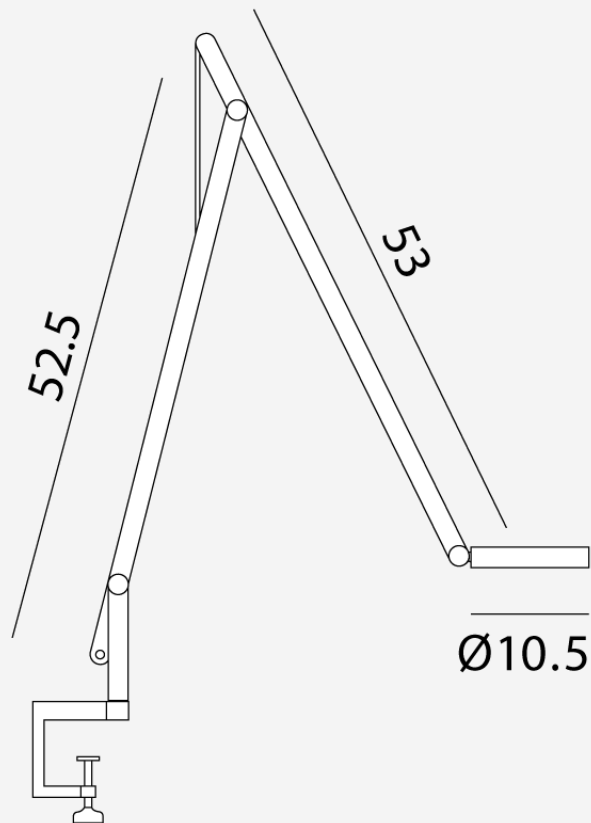

Description

The String T2 Table Lamp is a sleek light that features endless directional lighting thanks to its adjustable arm and rotatable head. A push dimmer on the lamp head continues the simplistic design aesthetic while giving allowing adjustment of the LED light source. The T2 version of the String Table lamp features a "clamp" base designed to attach to desk and table tops with minimal desktop footprint, making it perfect for offices and workspaces. Available in Black or white finish with black or orange cable.
